Wireless Remote Control Remote control from anywhere to anytime of the connected devices via MOES App.

Product Parameters

Product Name	Smart Lamp Socket
Type	E27
Input Power	85V~265V AC
Output Power	200W
Max Current	2A
Product Size	99mm*67mm/3.91in*2.64in
Wireless Protocol	WiFi 2.4G
Support system	Android / ios
Operating Temperature (°C)	-10~65°C

Preparation for Use

1. Download MOES App on App store or scan the QR code.

Moes application is much more compatible than Tuya smart / smart life application. It also provides a new customized service for controlling scenes through Siri, widgets and scene recommendation.
(Note: Tuya smart / Smart Life app is still working, but moes app is highly recommended)

2. Register ro log in

Enter the Register/Login interface; tap "Register" to create an account by entering your phone number to get verification code and "Set password". Choose "Log in" if you already have a MOES account.

Add WiFi Device

1. Make sure your smartphone or tablet is connected to 2.4G WiFi and Bluetooth is turned on.

Note: Not allow to hide wifi(SSID). Do not set "No Wi-Fi trespassing" or MAC address limits on your router.

2. Long press the button for more than 7s until the green indicator blinks quickly (blinking twice per second), and the green indicator blinks quickly (blinking twice per second), indicating that the pairing mode is in place. Please proceed to the next step directly.

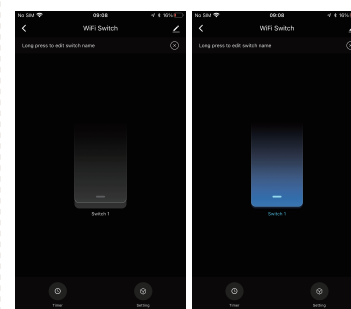

3. Open MOES App, click "+" in the upper right corner of the home page to enter the device addition interface, and find the device to be added.

4. Click Add, enter the WiFi password, then follow the prompts and wait for the device to be added successfully.

5. After the connection is completed and the device is successfully added, you can edit the device name and click "Next" to enter the device page to enjoy the intelligent life of home automation.

Control interface and basic functions
